BIG YIELD OF RICE

Frank M. Hammon, manager of the experimental farm at Port Arthur, is in the city today and is wearing an extra smile because of the splendid rice crop they are now harvesting. Mr. Hammon estimates that their acre will average fifteen sacks per acre despite the fact that they had such unfavorable conditions during the early part of the season. He says they have 198 acres of Japan rice that will average twenty-one sacks. They have the warehouses filled up now with Spanish rice and are building another warehouse with double the capacity.

MADE THE BOND.

In the case of Tony Edison vs. the large Tabor, Judge R. C. Tenison of Pensacola, Fla., who is here representing the owners of the vessel, has made a cash bond of \$10,250. The money was sent through the Citizens Bank of Pensacola to the Citizens National Bank of New York, and by them to the First National Bank of this city. This is a very large bond and it had to be made in order not to set the Tabor, which is now loaded and ready to go to sea. The case will be tried here in the December term of court.

Two hundred pounds of Spanish mackerel just received at Union Market. Every other variety of fish fresh daily.
